An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Joel Carter on August 5, 2004.

The application has been amended as follows:

Page 3, line 22 (penultimate line of paragraph 18), "opening 15" has been changed to – opening 19 --.

Claims 4 and 5 have been canceled.

Claim 1, last line, the period has been changed to a semicolon and the following paragraphs have been inserted thereafter:

-- wherein the latching devices comprises:

a latch member on the housing; and

a lever pivotally mounted on the yoke, the lever having an arm with a finger projecting therefrom, the finger being releasably engageable with said latch member;

further comprising:

a discrete lever spring coupled between the lever and the yoke and biased to urge the lever to a latched position wherein the finger engages the latch member. --.

Claim 6 now depends from claim 1.

The following is an examiner's statement of reasons for allowance: the lever spring 42 of Okabe et al 6174179 is not a separate (discrete) piece, nor would it have been obvious to make the spring 42 separate in view of any teaching of any prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary F Paumen whose telephone number is 571-272-2013. The examiner can normally be reached on Monday-Thursday.
